15. Application deadline: May 28, 17:00 (Japan Standard Time)

16. Contact person and address for application materials:

Prof. YASUMA Hiroki
Faculty of Fisheries Sciences, Hokkaido University
3-1-1 Minato-cho, Hakodate 041-8611, Japan

Phone: +81-(0)138-40-8847 E-mail: yasuma(at)fish.hokudai.ac.jp

All documents must be submitted by registered mail. Please write "*Application for Faculty Position, Faculty of Fisheries Sciences*" on the envelope. Submitted documents will not be returned to the applicant. Personal information in the application will be used only for this selection.

17. Interview: The selection committee may ask applicants to come to the Hakodate Campus of Hokkaido University for an interview. The applicant must cover all travel expenses.

18. Other information:

- (1) In the Laboratory of Marine Bioresource Science, education and research are conducted into the marine ecology, life history, and population dynamics of key species, such as fishes, cephalopods, marine mammals, and seabirds, to promote the conservation, management, and sustainable use of fisheries resources. This call is open to those who can lead ecosystem research on cetaceans in collaboration with a wide range of fisheries science specialists, including our faculty members, in ecological status analysis and the identification of species of fish and cephalopods from the stomach contents of cetaceans, using samples obtained from the survey on stranded cetaceans and so on. In particular, we welcome those who can take a leadership role in national and international joint research on cetology. In addition, we are looking for those who can be actively involved in university management. Moreover, applicants must have Japanese and English language skills at a level that does not interfere with the performance of their duties.
- (2) Current members of the Laboratory of Marine Bioresource Science (as of March 25, 2025):
Professors: TAKATSU Tetsuya, MATSUIISHI Takashi Fritz
Associate Professors: YAMAMURA Orio, NAKAYA Mitsuhiro,
NISHIMURA Kinya (will retire in March 2025)
Assistant Professor: Jean-Baptiste THIEBOT
- (3) Working conditions follow the work rules set by Hokkaido University

https://www.hokudai.ac.jp/jimuk/reiki/reiki_honbun/u010RG00000447.html [in Japanese]

- (4) The faculty is currently recruiting a female full associate professor under the provisions of Article 8 of the Equal Employment Opportunity Law, aiming to realize the spirit of 'Hokkaido University's Statement on the Promotion of Diversity & Inclusion,' and actively address the low percentage of a female faculty member.
- (5) Hokkaido University is committed to supporting all researchers in balancing their education/research activities with their personal lives and creating an environment where they can be active. For specific information, please visit the DEI website (<https://www.dei.hokudai.ac.jp/en/>).
- (6) Job responsibilities will include engaging in the following tasks together with other faculty members: Planning for addressing the low percentage of female faculty members in the Faculty of Fisheries Sciences. Given the increasing number of female students aspiring to study cetology, we seek an individual who can contribute to the guidance and support of female students during fieldwork.
- (7) This applicant will also be responsible for lectures and practical training for international exchange programs and their associated social collaborations.
